+ Brackets (2)

# ASSEMBLY WITHOUT HAND STRAP

**1**

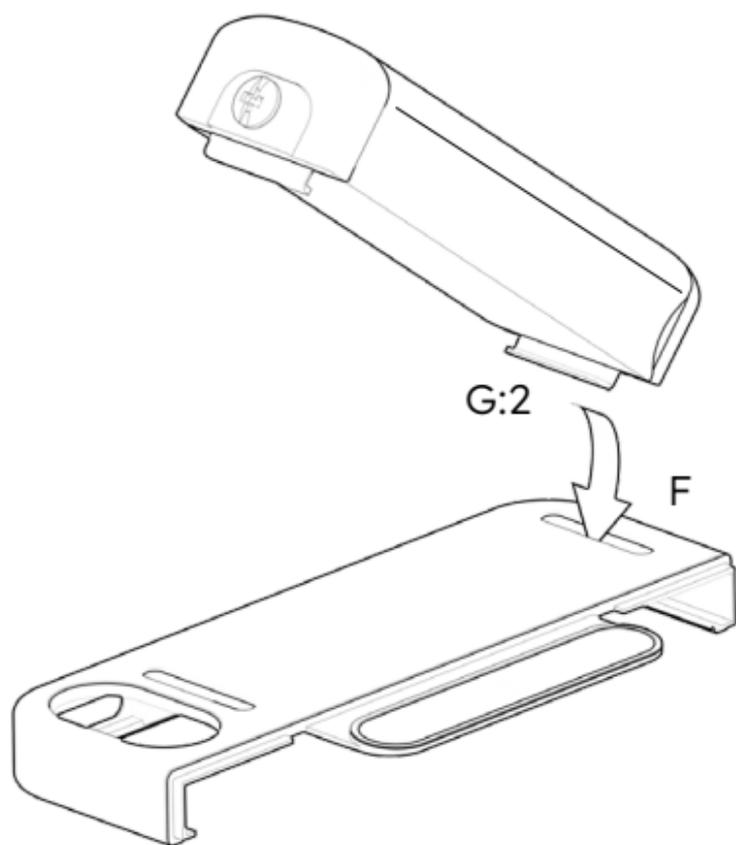

Face the indented curve of the Grip towards the Tablet Enclosure release button (F).

## ASSEMBLY: WITHOUT H.S.

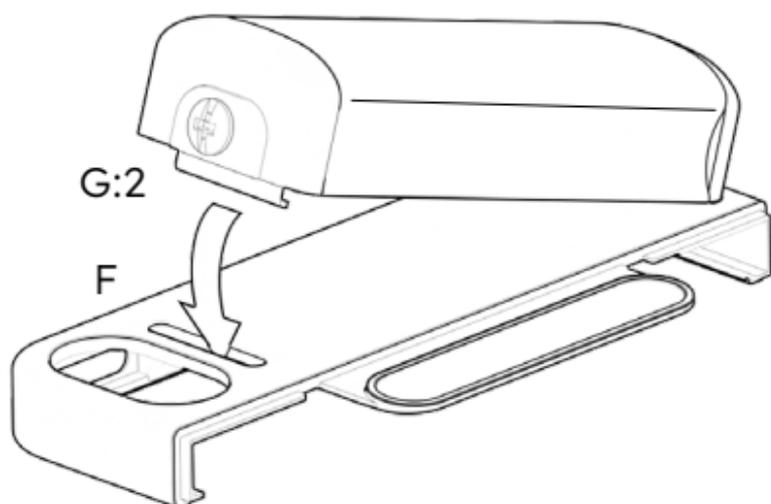

2

Slot the tab of one of the Plastic End Caps (G:2) into the Tablet Enclosure (F).

**3**

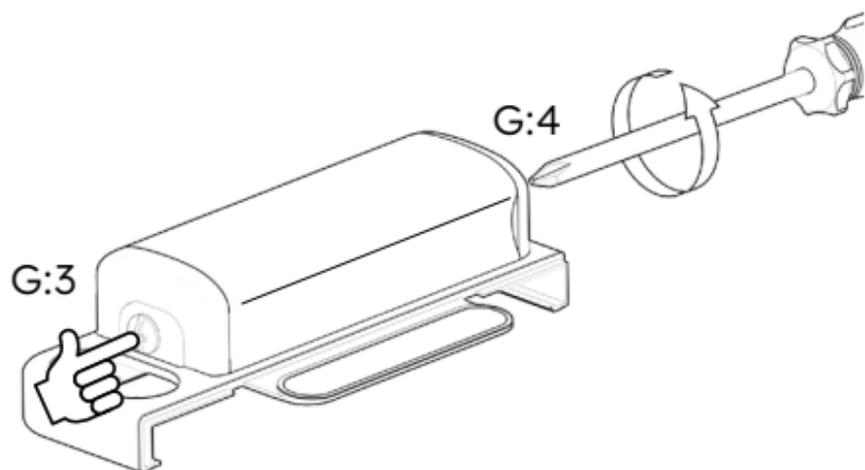

Press the other Plastic End Cap tab (G:2) into the remaining slot (F). Press until it clicks.

# ASSEMBLY: WITHOUT H.S.

4

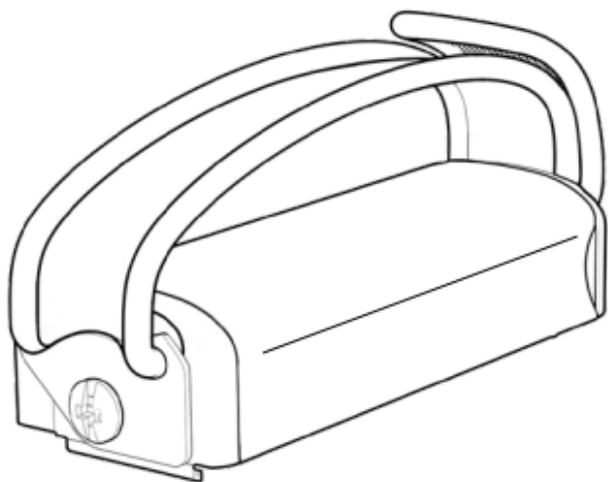

Put pressure on one Binding Barrel (G:3) while gently tightening the other (G:4).

Assembly Complete

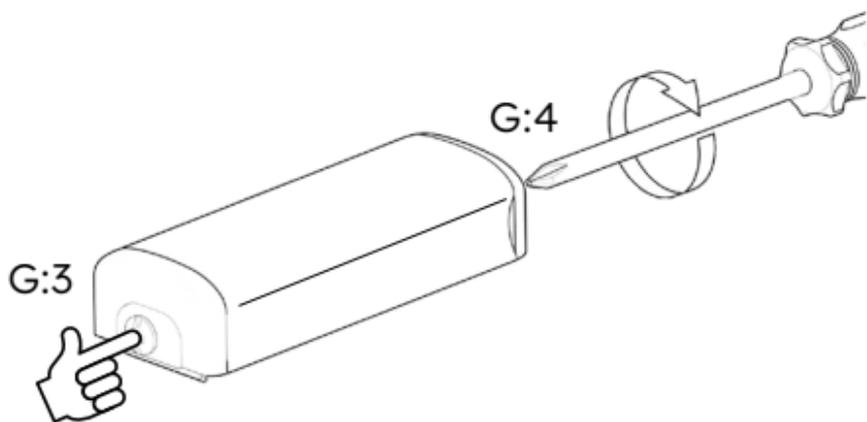

# ASSEMBLY WITH HAND STRAP

**1**

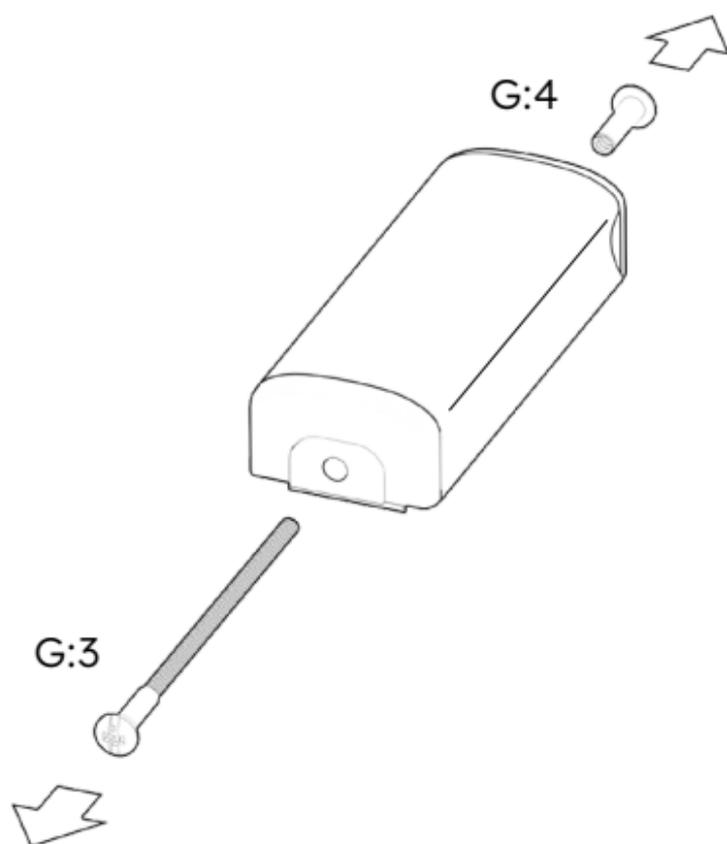

Put pressure on one Binding Barrel (G:3) while gently loosening the other (G:4).

# ASSEMBLY: WITH H.S.

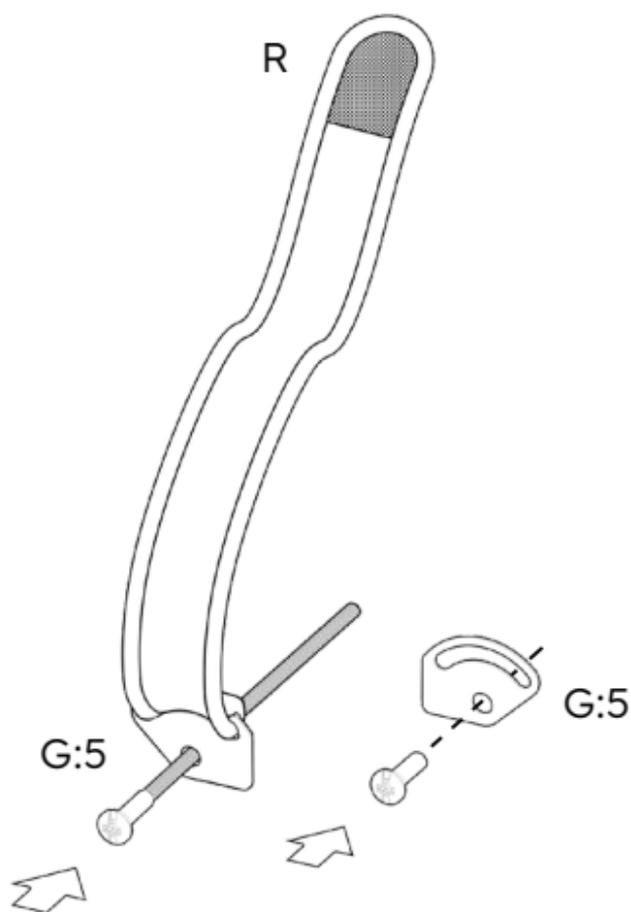

2

Remove the Binding Barrel/Rod (G:3) and Binding Barrel (G:4) from the Grip.

**3**

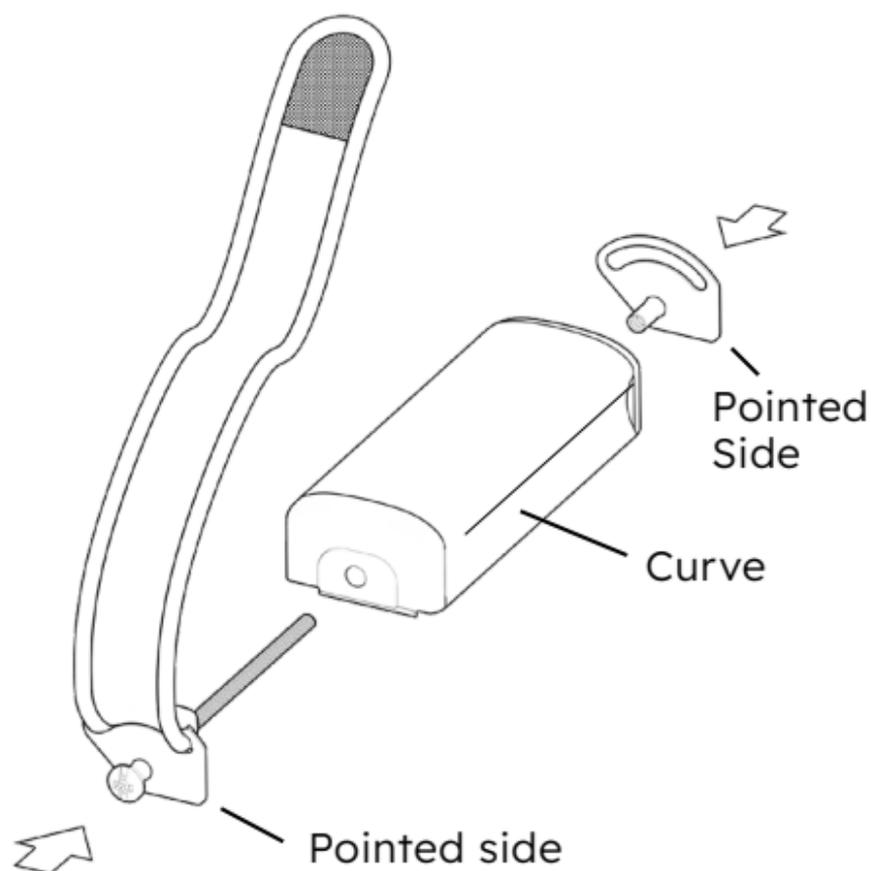

Slide the Binding Barrels into the Brackets (G:5) as pictured below, making sure the rough side (R) faces up.

# ASSEMBLY: WITH H.S.

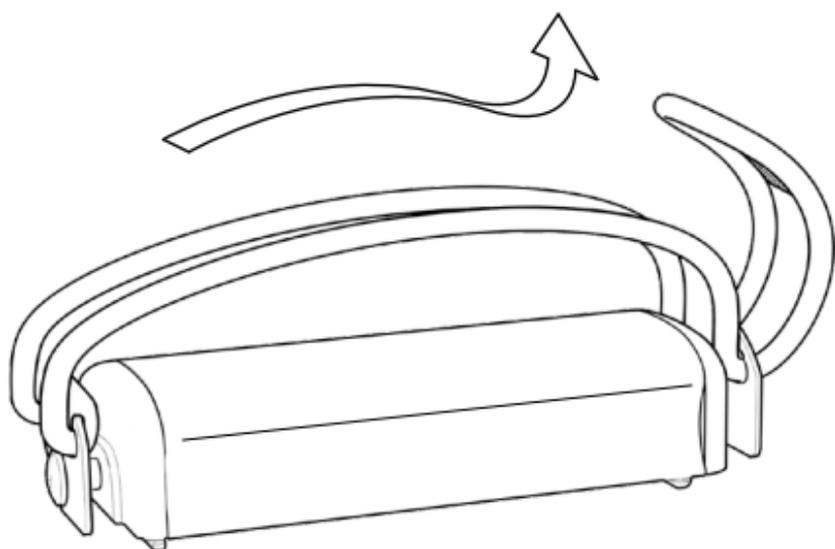

4

Push the Brackets and Barrels into the Grip with the pointed side facing the Grip curve. Loosely thread them.

5

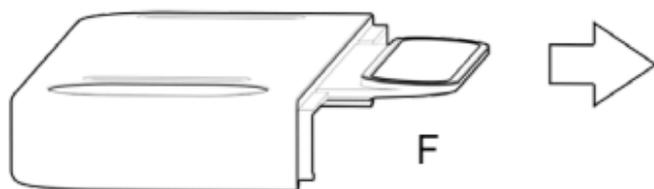

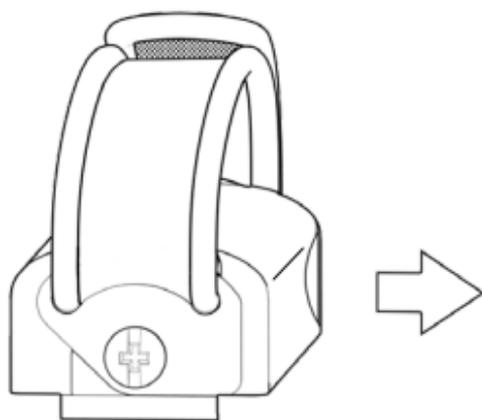

Feed the Hand Strap through the Bracket and back on itself.

# ASSEMBLY: WITH H.S.

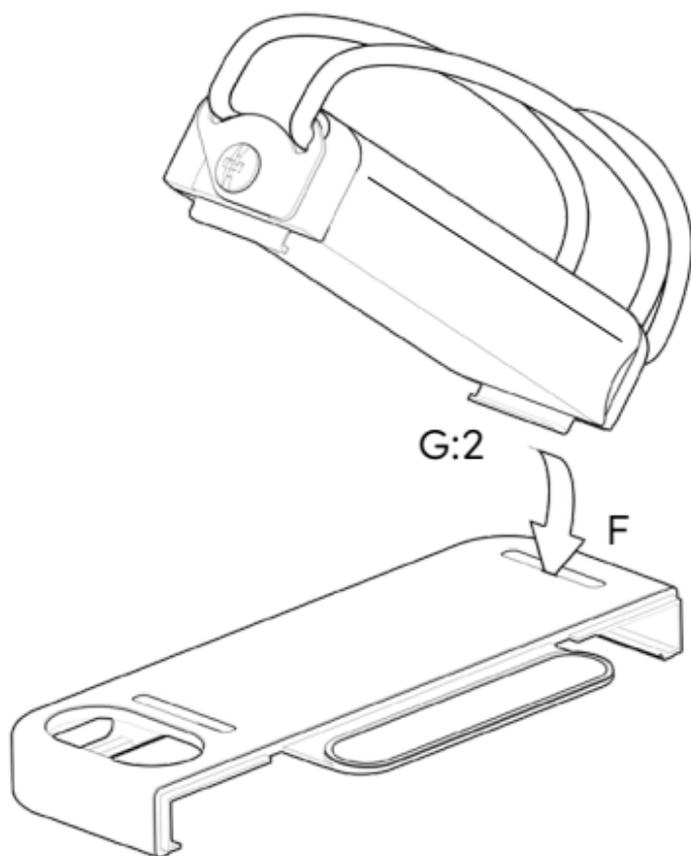

6

Face the indented curve of the Grip towards the Tablet Enclosure release button (F).

7

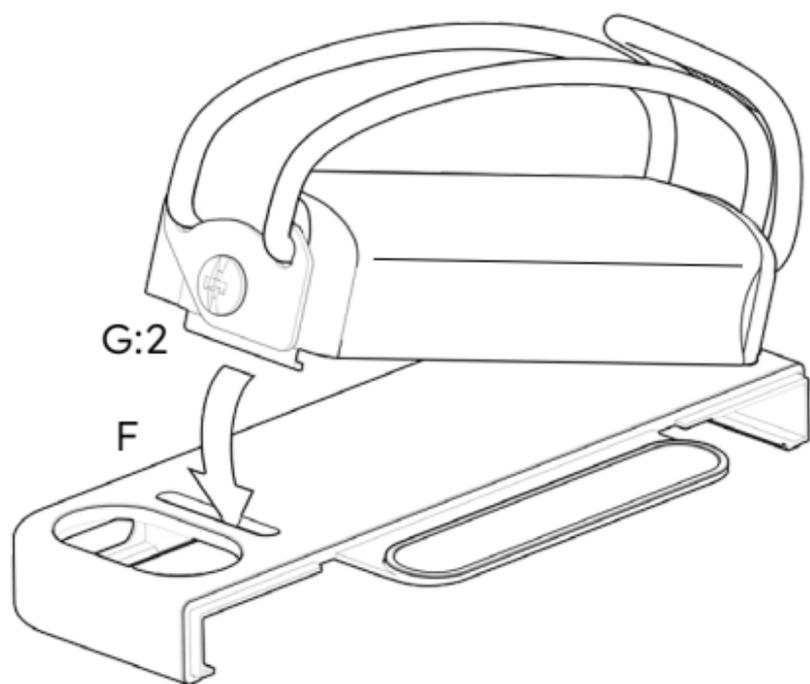

Slot the tab of one of the Plastic End Caps (G:2) into the Tablet Enclosure Head (F).

# ASSEMBLY: WITH H.S.

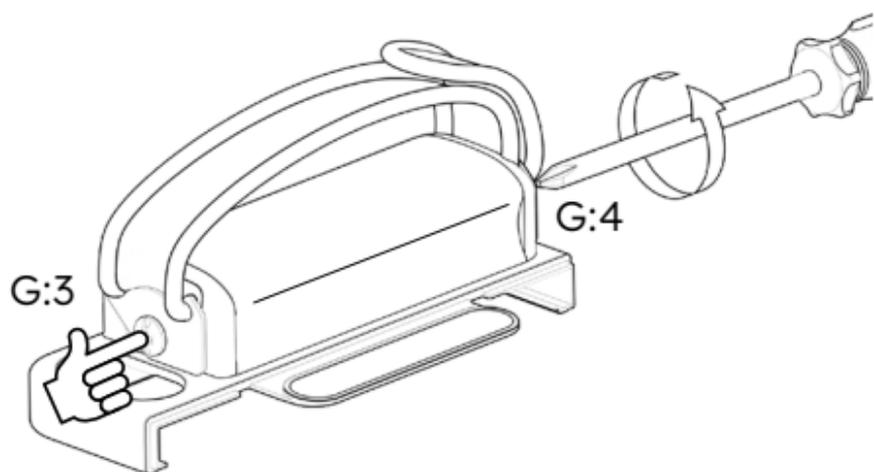

8

Press the other Plastic End Cap tab (F) into the remaining slot (G:2). Press until it clicks.

9

Put pressure on one Binding Barrel (G:3) while gently tightening the other (G:4).

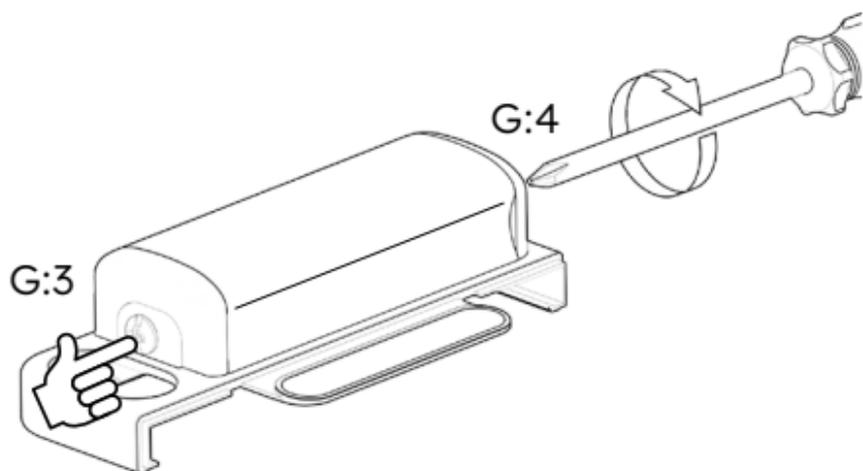

Assembly Complete

# DISASSEMBLY

**1**

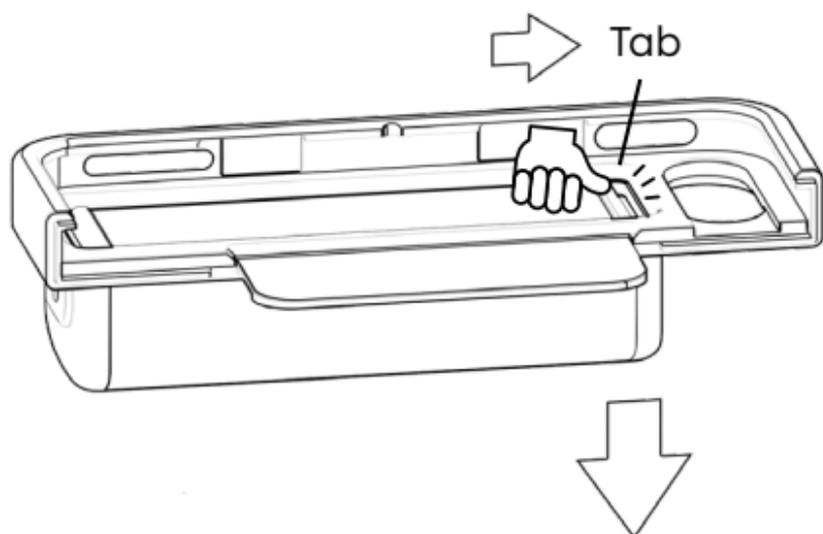

Put pressure on one Binding Barrel (G:3) while gently loosening the other (G:4).  
Remove the Binding Barrels.

# DISASSEMBLY

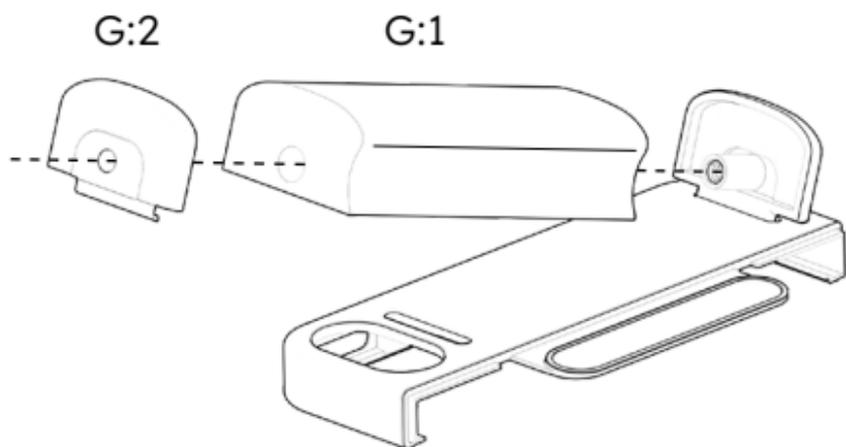

2

Pull the Grip down while pushing one of the Plastic Cap tabs out. The tab will click upon release.

**3**

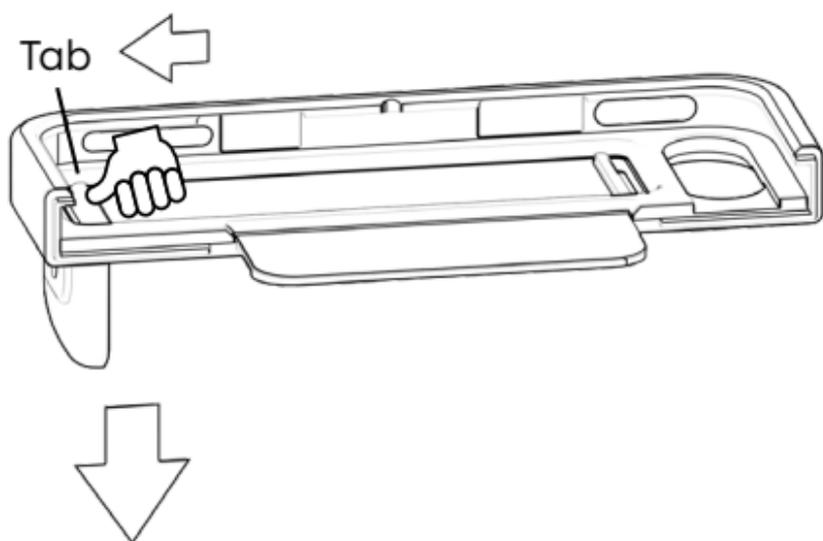

Remove the Rubber Grip (G:1) and loose Cap (G:2) from the remaining attached Cap.

# DISASSEMBLY

4

Push and pivot the remaining Plastic Cap tab to remove it from the Tablet Enclosure.

Disassembly Complete
