

VAULT CONNECT SYSTEM

MULTI-PHONE CHARGING STATION

Let's face it - technology that is constantly needing a charge is a hassle to every business. We have built a platform that takes all supported iPads, tablets, and peripherals and provides a simple power management source that keeps devices online all day.

KEY FEATURES

Unified Charging

Charge all devices through a single exterior port regardless of the specific configuration.

LED Power Status

Each bay within the charging Station comes with its own dedicated LED power status indicator.

Drop-in Design

Simply find an open bay and place the Connect Case in to begin charging. The built-in 200W power supply will immediately begin pumping power to the device.

SPECIFICATIONS

SKU	CNX2-MPCS-B
Dimensions (WXHxD)	16.25 x 5.5 x 3.36 in
Weight	4.00 lbs
