

Connect System Sled

Overview

Sled is the heart of Connect System and houses the charging and data connectivity capabilities.

All charging modes will revert back to default state after the Sled is removed from charging.

Charge for 2 hours before first use or if battery is fully drained.

Battery and Power

Battery Information

Part No: PV-B2100
Model/Type: P564769H
Voltage: 3.7V Capacity: 2100mAh
Impedance: 150mΩ (Max)
Charge Voltage: 4.2V
Charging Time: 8 Hours
Fast Charging Time: 3.5 Hours
Charging Temp Range: 5°F ~ 113°F
Discharging Temp Range: 14°F ~ 133°F
Storage Humidity Range: 65% +/- 20RH
Operating Humidity Range: 5% ~ 85%
Cycles: ≥300 Weight: 37.4 g

Warnings and Compliance

Warnings: Read all warnings before use

- Fully charge battery before use.
- Do not expose battery or electrical components to fire, extreme heat or cold, moisture, liquid, extreme low air pressure, punctures, or overtly hazardous environments.
- Do not use or charge if battery appears to be leaking, discolored, deformed, or abnormal.
- Non-operational batteries should be discarded according to local laws.
- This product is intended for those 14+ years old. Keep batteries away from children.
- Do not attempt to modify or repair device.
- This device contains Neodymium magnets. Magnets can affect or damage pacemakers, credit and ATM cards, data storage media, mechanical watches, laptops, and TV's. Keep away from objects that could be affected.
- Ignoring these warnings can result in potential property damage or personal injury.

Compliance

- This product complies with all applicable requirements for the Federal Communications Commission, European Conformity, Waste Electronic and Electrical Equipment, and Restriction of Hazardous Substances.
- Batteries, electronic, and electrical equipment should not be disposed of with household waste. Wherever possible, they should be segregated and brought to an appropriate collection point to enable recycling and avoid potential impacts on the environment and human health. For more information, contact your local authorities.

Returns

- Customer has 30 days to return items after delivery.
- All returns subject to a 15% restocking fee.
- Custom and/or branded products are No Cancel, No Return (NCNR).
- Shipping Responsibility: Customer

Troubleshooting Requirements

- Warranty Claims due to charging or connectivity issues will require all components involved to be returned to VAULT for inspection. This includes but is not limited to: power supplies, power cords, charging stations, batteries, etc. Third-party devices that are part of the final solution (I.e., tablet, payment reader, etc.) may be required by VAULT's inspection lab for troubleshooting.
- Failure to return items requested by VAULT technical support will result in delays in resolution.
- If no issue is found, or if the issue is with a 3rd party component, shipping will be the responsibility of the customer.
- Otherwise, standard warranties will apply.
