

## Items Included

Charging Station  
(1)

Power Delivery Unit (PDU)  
(1)

6ft USB-C Data Cable  
(1)

## Assembly

### Step 1

Plug the PDU into a wall outlet and the Station.

### Step 3

Drop in your cases and go!

### Step 2 (Optional)

\*Mac Mini shown as reference\*

To utilize data connectivity, run the Data Cable from a Mac to the Station. Scan the QR code for more data integration solutions.

\*Also compatible with most windows devices\*

## Product Specs

<b>Device Capacity</b>	5 Bays
<b>Max Device Size</b>	Up to 11" Screen Size
<b>Dimensions</b>	Station: 16.25in x 5.5in x 3.38in (412.75mm x 140mm x 85.85mm) Power Supply: 5.31in x 2.5in x 1.25in (135mm x 64mm x 32mm)
<b>Weight</b>	Station: 5.95lbs (2698.87g) Power Supply: 0.75lbs (340g)
<b>Regulation/Certification</b>	FCC Part 15 Non International Radiated & Conducted Emissions, Class B limits ICES-003 RoHS Compliance 2011/65/EC
<b>Power Specification</b>	Input: 20V = 6.0A 120W Output: 5V=3A, 9V=2.22A, 12V=1.67A
<b>Temperature</b>	Operating: 0° C to 40° C Non Operating: -10° C to 60° C

## Safety

### **Read all instructions prior to using the charging station**

Always unplug the power adapter before moving the product.

Do not use cables that are damaged.

Keep the station away from water.

Do not place the station close to flammable liquids or gases.

This product is designed to be used indoors only.

Do not block ventilation holes.

### **Warning**

Class I Equipment. This equipment must be earthed. The power plug must be connected to a properly wired earth ground socket outlet. An improperly wired socket outlet could place hazardous voltages on accessible metal parts.
